

Mobile solutions.

Tablets and mobile phones have taken the market by storm.

A decade ago it would have been hard to believe that we could walk around browsing the internet on a device that fits in the palm of our hand; if your business wants to keep up with trends then a mobile website is a necessity. We can create custom easy-to-use mobile sites without sacrificing the corporate identity established on your traditional website.

Every project that Rhye Media begins is considered the most important project that we are working on, no matter the size, budget or client, 100% focus and quality is ensured.

We have produced web solutions for the following clients:

- Edge Online Consulting
- Derbyshire Homes
- Infomedia
- Brighton Toyota
- Truffleduck

Design & Creation

Mobile Technology

Training & Support

The internet has revolutionised the way businesses work. You'd be hard pressed to find a company without a website, but if you want to make money from your site you need more than just a web presence; you need to stand out from the crowd. And to do that, you need a Rhye Media site.

flexible web solutions for your business needs

Unique Custom Designs

So many graphic design companies are content to use pre-made templates for their clients' sites, leading to a string of websites that are identical in everything but text and all too easily forgettable. If you want potential customers to take notice of your site, to have it grab their attention, impress them and stay in their memories, then you need something entirely unique. This is where Rhye Media can help.

Package details and features

The number of options and features available within a fully integrated Content Management System (CMS) site are numerous and these types of features can be added to your site at any stage. We can provide: custom site design, regular content updates, simple site navigation for users to find what they need fast and efficiently, complete Search Engine Optimisation (SEO) and full CMS training with off-site help-desk and support.
